### Pentire Solutions

Keeping costs down is a vital issue for all businesses. It is not cost-effective to keep specialised staff on the payroll where the need for their skills is infrequent. From time to time, your business needs such skills.

The ability to continue critical business functions in the event of a prolonged disruption is vital to the ongoing operation of your business.

The services we offer are designed to help ensure that your business has the ability to survive whilst keeping your costs low, and enabling you to continue to focus all your resources on core activities.

### What can Pentire Solutions do for you ?

- Provide specialist expertise at the times when it is specifically required
- Provide support to your own in-house resources
- Provide support to establish criticalities of business functions and to assess the potential impact upon business activities of identified risks which may cause disruption to your Company's operations
- Provide objective, third party assessments of the suitability and effectiveness of security and / or IT controls, service and Quality System,s including your external support services (e.g. software suppliers)
- Manage projects to develop, review and maintain Business Continuity Strategies and associated Business Continuity and / or Disaster Recovery Planning
- Assist in the assessment and implementation of suitable solutions for the removal or minimisation of potential risks to your Company's operations.

## The service we provide is built upon quality, reliability & integrity

### What are the benefits to you ?

- Peace of mind, knowing that you
  - will have identified and resolved potential exposures
  - have ensured business continuity
- Relevant skills are immediately at your disposal when needed
- Savings on employees' salaries and related costs
- Minimised administrative overheads
